Author of Pauline Cushman: Spy of the Cumberland, and I am available for CWRT presentations about her life.

Retired GM engineer, currently a elementary school substitute teacher and part-time condominium property manager.

I have been studying, researching and writing about the 1850-1875 period of American history since the early 1901. I met my wife at Gettysburg in 1993, worked on the TNT movie, Gettysburg and first visited the battlefield in 1960--all good reasons to belong to the GDG.

I do have a deep interested in the Seventeenth Michigan Infantry, which was not at Gettysburg, so I am also interested in the 1862 Maryland campaign.
